## Global Energy Services Announces Acquisition of Bridges Oilfield Equipment Manufacturing

HOUSTON, February 15, 2011

Global Energy Services today announced the acquisition of Bridges Oilfield Equipment Manufacturing LLC of Ft. Worth, Texas. Bridges is a diversified oilfield equipment manufacturer producing a complete line of high pressure well servicing pumps, high pressure pumping equipment including frac, cementing, acidizing and nitrogen units and coiled tubing, wireline and snubbing equipment. Bridges products are operating in oilfields worldwide.

Michael Stansberry, President and CEO, said, “The combination of Bridges Oilfield Equipment Manufacturing and Global Energy Services greatly expands our ability to provide best in class drilling and well servicing equipment to our worldwide customer base. We are also pleased that Bill Bridges, company founder, has agreed to join the management team of Global Energy Services. With over thirty years of industry experience, Bill will be an invaluable addition to our company.”

Bill Bridges, founder of Bridges Oilfield Equipment Manufacturing, stated, “We are pleased to join forces with Global Energy Services. Together, we will be able to provide our customers with quality products designed to improve their operating performance and profitability in a safe environment.”

Global Energy Services, headquartered in Houston, Texas, has over 100 years of experience in providing best in class products and services to the world-wide energy industry. The company has become a market leader in the design and manufacture of highly mobile land drilling rigs, premium mud pump components and expendables and fully integrated AC and DC power systems.
